DURAGRES

Timeless Elegance

Miracles are good. They inspire hope in people. Hope for better. Hope for uniqueness. That's where at Duragres we inspire our people to work on the design aspirations of 600x1200mm glazed Vitrified Tiles which blend with strength. Our combined advantages stem from the core of each tile bringing out the subtlety of our process values enshrined in each product.

ADVANTAGES

Unrivalled in durability, tiles offer versatility across spaces. From stunning aesthetics to easy maintenance, they embody timeless elegance, making them a perfect choice for any surface.

Hard coat technology refers to a process used in the manufacturing of glazed vitrified tiles. It involves applying a durable and scratch-resistant surface to the tiles, which enhances their longevity and performance. The hard coat technology provides tiles with a protective layer that makes them more resistant to wear and tear, stains, and abrasions.

DESIGN, PATTERN & SHADE VARIATION GUIDE

Current development efforts have made ceramic tiles to resemble and look authentically identical to natural material (Stone, Wood, Fabric), and it has become increasingly difficult in many cases, to distinguish between two.

Recognising this situation, it is necessary to be informed on the grade of design & pattern variation that is expected from these products. As a general reference, the design & Pattern guide below classifies a scale of ranges according to the degree of variation.

The classification is as follow:
V1 Minimal Variation V2 Slight Variation V3 Random Variation V4 Substantial Variation

High Definition Image

While laying the tiles please follow the arrow on the back of the tiles.
For removing the wax from the surface of the tiles please use the soft cotton cloth for rubbing with any boric/talk powder

VEILCRAFT (VC) SHIELD

Not only look and style; the buzz word for the Gen X tile is timeless elegance. Here comes the revolutionary patented "VeilCraft (VC) Shield" technology, a 'high abrasion resistant glaze composition', known as VC (VeilCraft) Shield. This is the first ever patented technology in Indian Ceramic Industry. This not only gives you the perfect aesthetics for your space but also the lifelong protection to your floor.

Result Of The abrasion test at 25,000 revolutions as per the PEI Methodology
